

## Changes to membership effective January 1, 2026

Why do we have a **Membership Based Office**? The membership is a monthly fee that helps to offset the ever-declining reimbursements from insurance and to continue to allow our office to provide longer appointment times and patient-centered care.

### Membership Fees:

**\$50/month (includes all immediate family members)**

### Benefits:

- 24/7 access to a Board Certified Pediatric Neurologist
- Quick turn-around time for forms, refills, and phone calls
- Faster follow-up appointments
- No extraneous fees including those typically collected for: medical records, EEG discs, no-show fees and after hour fees

All **new patients** will be seen without the need for a commitment to the practice. If you would like to continue care with us, including any medication refills, letters, or phone calls, this will then require initiating the monthly membership fee.

**Commercial Insurance will still be accepted.** The membership fee is to offset additional costs to the practice and is not intended to replace any copays or deductibles otherwise owed per your contract with your health insurance provider.

We look forward to continuing to provide quality care for our patients.

Sincerely,

Dr. Jones, Dr. Feezel and staff of Houston Area Pediatric Neurology
